#### METEOROLOGICAL SUMMARY.

Weather Observer Cowdick Issues July Weather Report.

The meteorological summary of the weather for the past month, issued by Weather Observer Cowdick yesterday afternoon, shows that the month compares favorably with the July record of former years. On the average, the month was fair with 21 clear days, 6 cloudy and 4 partly cloudy days.

July is generally the warmest month of the year and while the highest reading was 59 degrees on July 6, many people were of the opinion that the month was a bit hot. Compared with other years this was not true however as the thermometer frequently reaches 100 degrees during July. The lowest reading was 48 degrees, taken at 7 o'clock the morning of July 8.

#### STELLER FUNERAL IS HELD.

The funeral of the late Mrs. Thos. Steller of West Houghton was held this afternoon from the residence, Rev. William Field officiating.

### WOMAN REFUSES OPERATION

Tells How She Was Saved by Taking Lydia E. Pinkham's Vegetable Compound.

Logansport, Ind.—"My baby was over a year old and I bloated till I was a burden to myself. I suffered from female trouble so I could not stand on my feet and I felt like millions of needles were pricking me all over. At last my doctor told me that all that would save me was an operation, but this I refused. I told my husband to get me a bottle of Lydia E. Pinkham's Vegetable Compound and I would try it before I would submit to any operation. He did so and I improved right along. I am now doing all my work and feeling fine.

"I hope other suffering women will try your Compound. I will recommend it to all I know."—Mrs. DANIEL D. B. DAVIS, 110 Franklin St., Logansport, Ind.

Since we guarantee that all testimonials which we publish are genuine, it is not fair to suppose that if Lydia E. Pinkham's Vegetable Compound has the virtue to help these women it will help any other woman who is suffering in a like manner?

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

Write to Lydia E. Pinkham Medicine Co., (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

### OPENS CAMPAIGN FOR GAME SEASON

State Warden Calls Aides' Attention to New Laws

The game and fish department has commenced its campaign for the opening of the game seasons. Hunters' license are being sent to the county clerks by the taxful. The game wardens are being brushed up on the laws and notices are being posted regarding the open seasons on the various animals.

One important change has been made in the laws since the legislature met. The 1913 legislature passed a law extending the open season on certain migratory birds until August 1. The law conflicts with the federal law and had to be made to conform with what congress said. Most animals are protected, even pigs being under the wing of the law from November 1 to June 1.

The department has prepared a synopsis of the game laws for the use of the rangers and sportsmen. It follows:

James A. Cruse

Candidate for renomination as sheriff on the republican ticket at the August primary.

SUGGESTIONS TO VOTERS.

At the primary election voters may mark the ballot in only one column, or party ticket. Voting in more than one ticket makes the ballot void. It is not permitted to vote for men on more than one ticket.

I respectfully request the votes of all republicans and wish to remind them that if they should want to vote for a candidate for some other office on the ticket other than the republican, they should first learn if that other candidate has opposition before deciding. If he has no opposition it is not necessary for you to vote for him and run chances of making your ballot worthless.

## SHERIFF BLOCKS ELOPEMENT PLAN

Routed Out at Early Hour to Halt Runaway Couple

Routed out at 2 o'clock this morning at the request of an angered Hancock man, Sheriff Cruse succeeded in blocking the plan of a runaway couple and returned the woman to her home. The sheriff was awakened by the telephone call in which the husband informed the sheriff of the attempted elopement. "They are headed for Chassell" was the only information conveyed to the sheriff. An automobile was hastily pressed into service and the man and woman were apprehended near Arnhem.

The woman is about 35 years old and the man appears to have just passed his majority. At any rate, the woman insisted that she had become tired of living with her husband and insisted that her love was for the younger and "better looking" swain. The husband meanwhile reflected and when his wife arrived home, he agreed to forget the episode upon the promise that the young man leave the county. He left.

Britain Has 32 Dreadnoughts in North Sea to Germany's 16

New York, Aug. 4.—These are probably the dreadnought types in the British fleet in or near the North sea.

Tiger, Queen Elizabeth, Queen Mary, Lion, Princess Royal, Ajax, Audacious, Centurion, King George V, Conqueror, Monarch, Orion, Thunderer, Colossus, Hercules, Neptune, Collingwood, St. Vincent, Van Guard, New Zealand, Indefatigable, Hellfire, Temeire, Superb, Dreadnought.

These are all big-gun ships, completed, except the Dreadnought, since 1908. They are the chief support of the home fleet. Such other vessels as the King Edward VII, Dominion, Commonwealth, Hindustani, Zealandia, Hibernia, Britannia, Africa, Indomitable, Invincible, Agamemnon, Lord Nelson and Cornwallis, which have been used in the Mediterranean fleet, may have been recalled to the North sea; although, of course, some protection must be left at home, at Gibraltar and the Mediterranean. Also, the British North sea fleet has about seventy destroyers.

The more important German war vessels concentrated at Kiel and Wilhelmshaven, but principally at the latter place, to meet the British fleet, are:

Oldenburg, Helgoland, Ostfriesland, Thuringen, Friedrich Der Grosse, Kaiser, Goeben, Moltke, Von Der Tann, Posen, Rheinland, Westfalen and Nassau.

Besides these, the Koenig Albert, Kaiserin and Prinz Regent Luitpold are probably in commission, giving Germany sixteen or seventeen dreadnoughts to about thirty-two to England.

These German vessels are all big-gun ships, laid down since 1907. In destroyers the Germans are very strong, having 141 mostly in the North sea, and these can be mobilized better than the British fleet of destroyers.

The Germans have also forty-seven torpedo boats and thirty submarines, so that in the first attack, which is almost certain to be a torpedo attack, the Germans should make a good showing.
